

GLOBAL SUSTAINABLE
ENTERPRISE SYSTEM

'S Werelds eerste holistische, geverifieerde en geaccrediteerde benadering van duurzaamheids beoordelingen en monitoring.

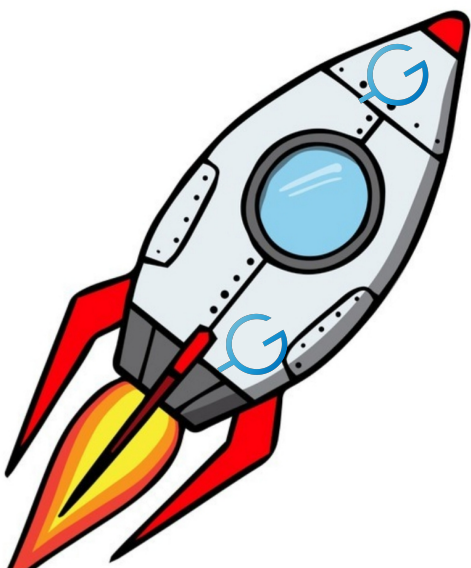

We have 17 SDGs and MANY Standards, Laws and Regulations.

INTENDING TO MAKE A DIFFERENCE.

Organisaties willen:

- Voldoen aan wet- en regelgeving en transparantie stimuleren
- De Global Goals meten en implementeren
- Een circulair businessmodel
- Risico's minimaliseren en de positieve impact optimaliseren voor People, Planet, Profit

HOUSE OF SUSTAINABILITY

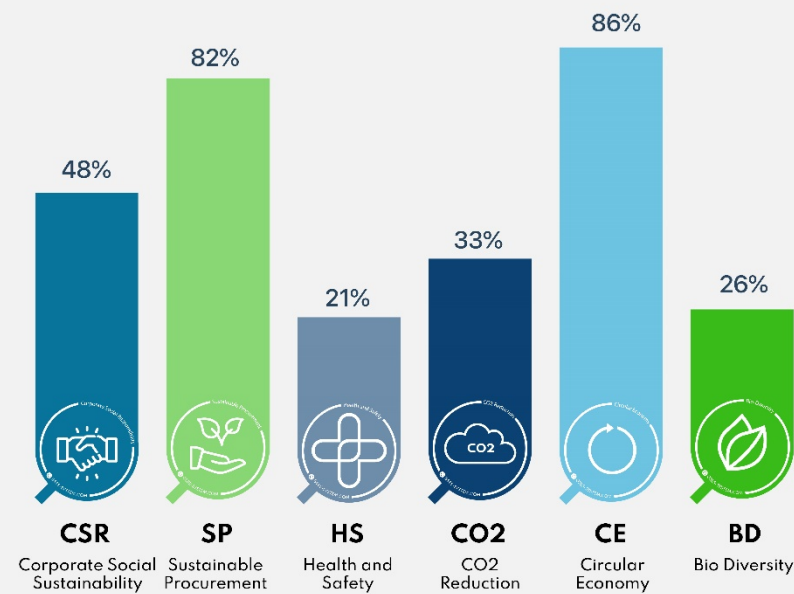

FOR ORGANIZATIONS AND THEIR SUPPLY CHAINS

GLOBAL SUSTAINABLE
ENTERPRISE SYSTEM

1. SUPPLY CHAIN: ORGANIZATIONAL LEVEL

GLOBAL SUSTAINABLE
ENTERPRISE STANDARD ?

The GSE-Standard measures the organization level in six pillars - covering all facets of sustainability. It is based on GRI and ISO High-Level Structure and in compliance with the UN Global Compact, OECD Guidelines, and The Responsive Business Alliance.

2. SUPPLY CHAIN: PRODUCT/ PROJECT LEVEL

GLOBAL SUSTAINABLE
FOOTPRINT STANDARD ?

The GSE-Standard measures the project/ product level in three "Footprint" pillars. Together the pillars give a complete overview of the sustainability performance of a product, production process and supply chain.

Meta Standard - Exemptions

Organization Level

1st line Exemptions Metastandard Organization Level
Validation on Standard level (without extra reports)

2nd line Exemptions Metastandard Organizational Level

(validation by full audit report) :

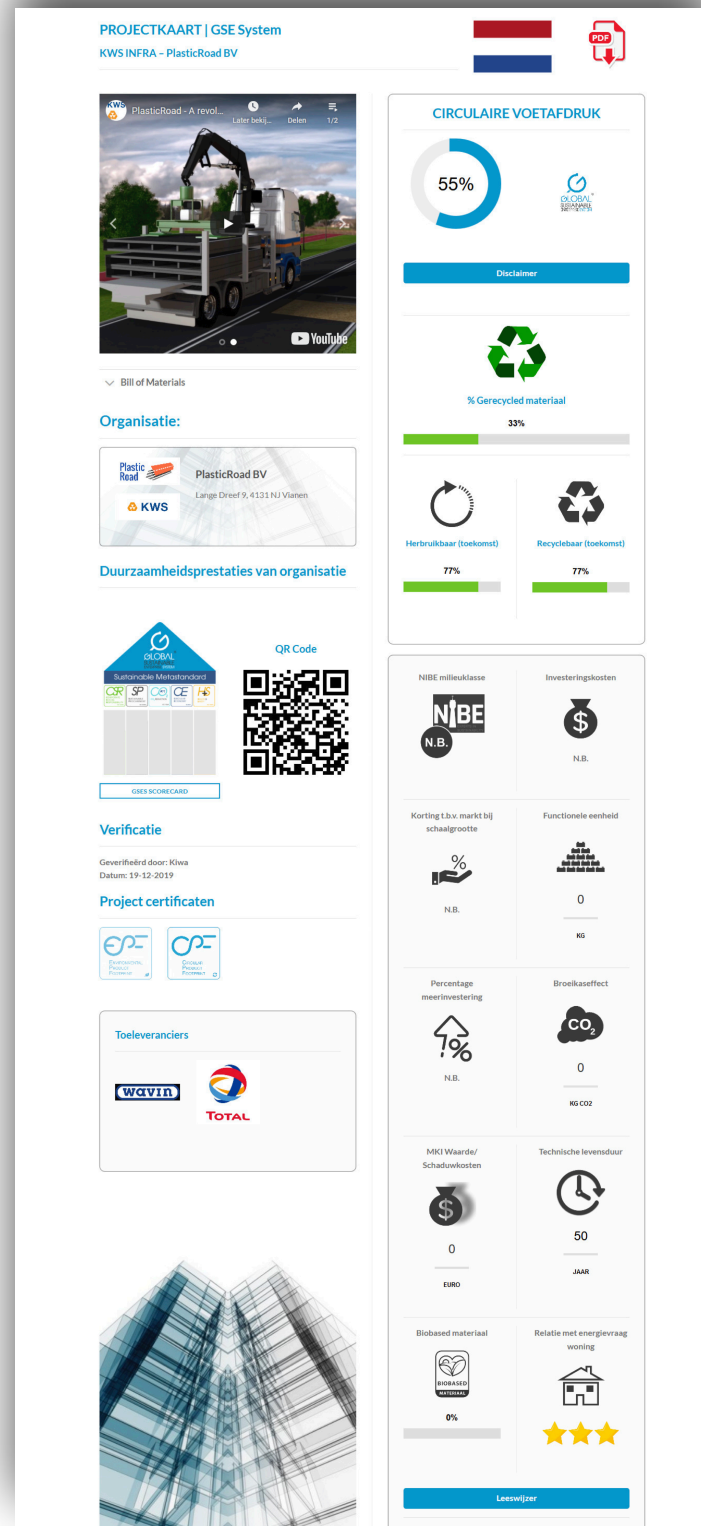

Product / Project Level

2nd line Exemptions Metastandard Product / Project Level
Based on full audit report

Validation and certification

MEMBERS OF GSE-SYSTEM HAVE THREE VERIFICATION OPTIONS

1

Uncertified member
Uses GSE-System,
but has not done a
desk review and
external audit.

2

Validated member
Passed the desk
review (1st phase of
becoming a certified
member)

3

Certified member
Passed the external
audit performed by
third party Certifying
Institute

Let's make a difference
together.
