GUIANA-SURINAM BASIN

WHAT'S HAPPENING IN THE GUIANA'S

Following on from the success of the inaugural OBTN Seminar in Paramaribo, Suriname last year, we invite you all to join us on June 26th, 2019 in Rotterdam, Netherlands for the 2nd "One Basin Three Nations Oil and Gas Seminar". We could not be more pleased as OBTN 2018 has exceeded our expectations in the level of interest, participation and support for the OBTN Initiative/ Seminar in its first year. Over 125 delegates and companies, both local and from overseas (Guyana, Trinidad, Netherlands, St Kitts & Nevis, Curacao and Canada), participated in OBTN 2018. The event was opened by Suriname Natural Resource **Minister Dodson** and included speakers such as **Deputy Minister Gordon McIntosh** from Newfoundland & Labrador (Canada), **Leopoldo Henriquez** former Chief Inspector State Supervision of Mines the Netherlands and **Siegfried Kenswil** from Kenswil & Co.

ROTTERDAM OBTN SEMINAR 2019

Aims to promote the Guiana's as the investment opportunity of choice by presenting an overview of what is happening in the Offshore Guyana-Suriname Basin, and investigate opportunities for the international business community, as well as the diaspora, to contribute to wards sustainable development of the oil and gas in the Guiana Basin.

Please visit our website (www.onebasinthreenations.com) for more information and 2018 OBTN Seminar impressions.

ABOUT ONE BASIN THREE NATIONS

‘One Basin Three Nations’ is a homegrown private initiative that was established by a group of local entrepreneurs with consulting from International Oil and Gas experts.

Our vision is to establish One Basin Three Nations as the premier Oil & Gas Seminar/Conference brand in the Guiana’s and region to initiate a voluntary framework agreement where stakeholders collaborate on key themes such as transfer of knowledge, best practice sharing, health, safety, and environmental issues that will all be pivotal to the success of the emerging energy sector.

OBTN FRAMEWORK

One of the One Basin Three Nations goals is to come up with a voluntary framework agreement where all stakeholders collaborate or work together on common goals such as transfer of knowledge, best practice sharing, health, safety, environment to contribute to sustainable development of the Guiana’s.

We aim to raise awareness and contribute to the sustainable development of oil and gas in the Guiana Basin by organizing events, development programs and training courses, together with our partners (Ministry of Natural Resources and Ministry of Trade, Industry & Tourism) for stakeholders such as the local business communities (SME’s), Government, NGO’s and many more involved.

WHAT TO EXPECT

As the Guiana’s continue to attract increasing levels of attention and investment from the global Offshore Oil and Gas Industry, the region is set to become a major hub of activity that will present golden opportunities for each country. The OBTN Seminar in Rotterdam, Netherlands aims to provide participants with information on successes to date, current/future activity in the region, and opportunities for the diaspora, International companies and the global supply chain to engage with the market.
