- Experienced PM organisation and inhouse IRM department
- In-house R&D department
- Working all year round with 55 committed employees and up to 170 offshore specialists.
- Turnover roughly 50 million euro.

Core Values

Commitment

We are passionate about our work.

We are professional, experienced and engaged. We offer a safe, healthy and dynamic working environment and we encourage personal development.

We are committed and passionate about technology and the services we deliver.

Our people are enthusiastic.

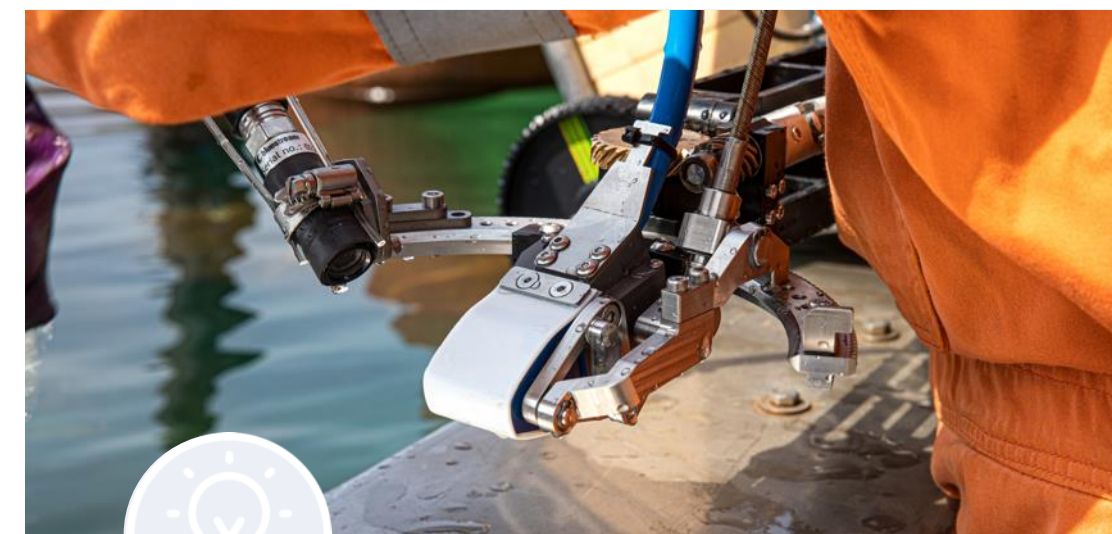

Client focus

With our clients' interests at heart, we find the best solutions.

As a mid-size company, we take a personal approach to our clients, working in close cooperation to understand their requirements and exceed their expectations.

Our strong client focus helps us create profitable and sustainable solutions.

Innovation

Innovation determines the future.

We strive for continuous improvement through high-quality innovations and tailored solutions.

And that's what makes the difference: our services and products create greater impact and our solutions add value to every project.

Integrity

We are trustworthy and value transparency.

We endeavour to be a reliable and responsible partner for all our stakeholders, acting openly and transparently.

We fulfil our obligations in compliance with regulations and guidelines.

And we treat the property of ourselves and others with the respect it deserves.

Professional accreditations and certifications

- ISO-9001, ISO-14001 and ISO-45001 certified
- Certified and active member of IMCA (diving and ROV divisions)

Nexstep MLS Decommissioning Joint Campaign (6x Dutch Operators)

Conductor dome recovery, cleaning and inspection

- Dome recovery by installing rigging on the dome using the ROVs manipulators
- Cleaned conductor rim with flexi-clean to determine rig cut method
- Using manipulators, the ROV positioned heavy tooling/equipment down hole, including:
 - 4" flushing hoses
 - High pressure jetting head
 - Drift gauge
 - Fishing magnet stinger
 - Inspection camera
- All tasks were completed mid-water in high current areas
